The Recipient Experience

Personalized (and branded)

The experience is personalized to the recipient and reflects the DTX22 event and your company's unique brand.

Meaningful

Recipients get to choose from a pre-set, curated shortlist of meaningful gift options.

Fun

Each recipient sees a "to/from" card, completes a digital reveal, selects a meaningful gift, and then can give your company a high-five.

Knowledge as Gratitude

Upon confirming their gift choice, recipients may be asked a few questions to surface valuable insights.

Easy

From start to finish, the experience for recipients is personalized, meaningful, fun, and most importantly, easy!
