## Saturday Biomedical Sessions

Biomedical technicians need to know about basic Electronics - and who better than **John Sweeny**, who has the ability to take complicated subjects and simplify them.

Next, **Danilo Concepcion**, St. Joseph Hospital, will discuss the Life Safety Code and how biomedical technicians can use this information to improve their work.

Water Treatment... without water, there is no dialysis! **Jim**

**Baker**, AmeriWater, will provide new insights into the latest in treatment options.

The core responsibility of the biomedical technician is Troubleshooting Why a Machine Doesn't Work. Our panel is moderated by **John Sweeny** who will talk about the basic functions each machine must do - and **David Carlson** from **Fresenius Medical Care NA** and **Duane Martz** from **B. Braun** will talk about how their respective machines address

these functions. This session is a must see for technicians who want to understand the what and how dialysis machines work.

Our day ends with a look at **What Sandy Taught Us**. Dialysis patients rely on their regular treatments for their very survival. Listen to **Karen Evans** and **Andrew Lleras** discuss how the units for which they were responsible dealt with the hand that Sandy gave them.

## Sunday Clinical Sessions

The new *CMS Core Survey* has different requirements for dialysis technicians - you'll learn what you need to know from **Danilo Concepcion, CBNT, CCHTA**.

*Vascular Access* is an important aspect of the dialysis process - **Dr. Larry Scher** will review key points and also discuss Hemo Grafts.

In *Assessment is a TEAM Event* **Jan Miodowski, RN, BSN, CNN, CCM, AATCM** takes a look at how technicians play a vital role in the health care team for CKD patients.

After lunch, in *Diet DOES make a Difference*, **Susan Russo, RD**, reviews the nutritional needs of dialysis patients.

With a growing number of *Treatment Options and Lifestyle*, **Dori**

**Schatell, MS** will provide updates so that technicians can their patients *Make the Right Match*.

**Roberta Billman, MSN, CCTC, CNN** provides Transplantation Information for Your Patients. The day concludes with **Nicole Martinez, CHT** and **Renise Smith, CCHT, CHT** on *Initial Motivators & MaJo Maintenance*.

Please schedule this program again because all from dialysis units should attend this seminar... It helps a lot for us and all the dialysis unit and most of all for the patients...excellent program!
