

**Green Dialysis for a Greener Tomorrow:** Environmentally Conscious Dialysis Therapy Rejean Quesnelle Renal Technologist – Halton Healthcare Services Thursday March 11, 2011- NANT Conference

C TemplatesWise.com

# What is Green Dialysis?

- A treatment model that is:
  - Sustainable
  - Environmentally Sound
  - Ethical
  - Profitable (& Fiscally Minded)
  - Meets G Rating Requirements: Good For People, Planet, & Pocketbook

# Can you learn how to be green in 45 min? YES!

 Can I teach you everything about Green Dialysis Today? <u>NO</u>

# **Here's The Trash**

• The Evidence

- The Current Problems
- The 360 Program
- The New Plan

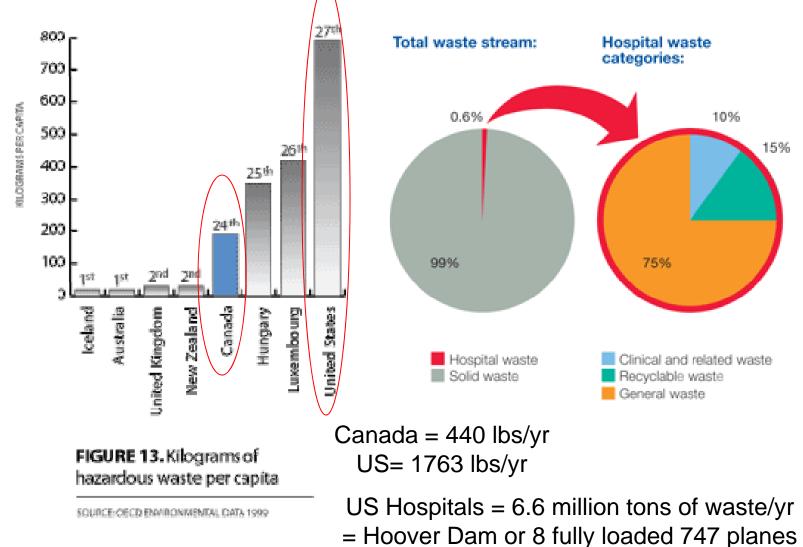

# How We Differ?

Canada	United States
Reuse Programs -1	Reuse Programs – 1000+
Concentrate Delivery-jugs	Concentrate Delivery- central delivery
Publically funded model	For Profit Model (primarily)
Hospital based units	Clinic based facilities
Patient care- Nurses	Patient Care - PCT

# The Healthcare Waste Dilemma

# **Healthcare Waste**

- 24 Stations = 144 patients
  - ~5 lbs/pt = 780 lbs/yr/pt
- Entire unit = 112,320 lbs or 56.16 tons
- Hospital solid waste (2009) = 550 tons
  or 1,093,493 lbs
- dialysis waste = 10% of hospital's waste

#### The Problems

The Global Footprint
 Corporate Involvement
 Lack of Responsibility/Accountability

- Economics = Profit
- Lack of Personal Commitment
- □ The Price We Pay
- □ The Wrong Plan

#### ...the bottom line

# The 360 Program

#### Change your **THINK** Change the **WORLD**

# Step 1 – Know Your Trash

Ask the following Questions??

- 1) How do we currently manage our waste/recycling?
- 2) Where can we improve?
- 3) What can we change?

Finally: Do a waste audit

# Step 2 – Rethink the Approach

#### THE NEW R's

Rethink

- Restore
- Rebuild
- Redevelop
  - Respect
  - Renew
- Recharge

Replace
 Redefine

Resell

- Reward
- Regain
- Redistribute
  - Redesign
- Reintroduce

# Step 2 - Learn to R.E.A.D.

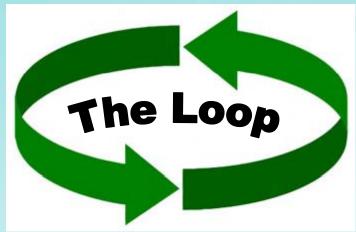

- Realize the issue
- Examine the problem
- Assess your options
- Determine action

#### **Step 3 – Positive Intentions**

Engage Educate Expand 1 factor Enroll 6 **Excite**  Encourage The POWER of the ctive Individaa Energize Entertain

# Step 4 – Keep it Round

- Translating Vision Into Action
- Form a Green Team
- Apply Waste Strategies: Lean SixSigma, ISO 14001, Zero Waste
- Design a Green Materials Management System (Environmental Purchasing Policy)
- Waste = Food

# **Step 5: The New Action Plan**

- Create a New Work Environment by:
- Taking InventorESS
- Knowing your waste
- Applying New Thi
  Tackling hellow
- nging Fruit
- Keeping It Simple
- See The Results

# **Saving The Bottom Line**

# **Regular Trash**

KARANA AND A CARANA A

#### **Regulated Waste and Sharps**

# SHARPS.

An evolution in medical waste treatment and repurposing that creates a new resource!

Introducing PELLA-DRX™

#### Other Ways to Stop Waste

Free battery disposal

Cal 2 recycle<sup>®</sup> Recharging the planet. Recycling your batteries.<sup>™</sup>

- Litterless Lunch/ Boomerang program
- Sell used equipment- Gia Medical
- Silent auction
- Donate Remedy Program (Yale), American Medical Resource Found.
- Stop It First!

# **Your Dollar Solutions**

MAXING YOU WANTED A CHEN A A GEN AND A HORAL AND A

#### Recyclables

Sell your
 Cardboard &
 Boxboard for
 \$\$\$

#### Recyclables

 Look for other recycling options for commodities: Fine Paper, Plastic Jugs, Acid drums, Bicarts, etc.

Sepa United States Environmental Protection Agency

http://www.epa.gov/epahome/whereyoulive.htm

#### From Trash to Cash

- Waste to commodities program - \$ for motors, wire, etc.
- Fundraising Cell Phones, ink & toner cartridges, cameras, etc.

# **The Road Ahead**

# Equipment Design Corporate Initiatives

# My Personal WHY?

**The Last Trash** Live your new THINK Keep R.E.A.D.ing Embrace the Intentions Get in the LOOP Cultivate a New Waste Image Change will come and has already begun.

# When the people lead, the leaders will follow - Gandhi

If each one of us does our part, we can build a new future for healthcare - Myself
